

EXPERIENCE

Citi - Technology Analyst (Chennai)

UPSB Data - Fraud Analytics Modelling Engine

August 2025 - July 2026

- Contributed to the fraud analytics application enabling real-time fraud detection using Python and Spark supporting data-driven risk management.
- Implemented data engineering frameworks including small file merge and S3 archival to improve storage efficiency.
- Handled deployment processes to ensure operational efficiency across releases.

TTS Services - CPX SEPA

July 2024 - July 2025

- Developed functionalities for payment processing application for SEPA payments.
- Gained working knowledge of end-to-end payment flows and settlement processes, strengthening understanding of the SEPA payment lifecycle.

Citi - Summer Internship (Chennai)

June- July'23

- Developed a single-page file streaming application using Spring Boot, ReactJS and Apache Kafka.
- Conducted user testing using SoapUI and optimized database interactions with JDBC.

PROJECTS

- Yatrafy – GenAI Travel Planning Assistant**

Advanced to Round 2 of ISB Neovate's national case competition, developing a go-to-market strategy for a client-facing GenAI travel planning assistant, including market analysis, customer segmentation, and competitive gap analysis; followed with a 3-phase MVP roadmap defining feature prioritization and success metrics for the product launch. ([Yatrafy](#)) (built using Claude Code)

- Crumb – Recipe & Meal Tracking App**

Ideated and built Crumb, an app to consolidate recipes from social media, messages, and family sources into one place for saving and meal tracking. Owned the product vision and user journey end-to-end, translating design decisions into a working MVP using Claude Code. ([Demo](#))

- Soft Skill Enhancement Using Virtual Reality Exposure Therapy**

Developed a Unity-based interview simulation application to help students with job interviews, primarily handling C# scripting for functionality implementation. Conducted user research to understand student needs and improve functionality. ([Demo](#))

EDUCATION

- MSc Management of Technology, TU Delft (Commencing September 2026)**

- B.E, Computer Science (Sri Sivasubramaniya Nadar College of Engineering)**

2020-2024

- CGPA: 8.236/ 10.00

- P.S.B.B.S.S.School (Central Board of Secondary Education)**

- 12th: 95.2% (Physics, Chemistry, Mathematics, Economics, English)

- 10th: 95.6%

SKILLS AND INTERESTS

- Programming Languages and Frameworks - Python, Java, C, HTML, CSS, Javascript, Spark, Springboot, ReactJS
- Databases - MySQL, MongoDB
- Tools - Jira, Bitbucket, Git, Linux, AWS, Kubernetes

ACHIEVEMENTS AND EXTRA-CURRICULAR ACTIVITIES

- Finalist, IIT Madras Performance Poetry – Developed storytelling and public speaking skills.
- Finalist, SSN Hack and Tackle '22 – Created a prototype for gamifying and incentivizing waste segregation.
- Head of Editorial, ACM – Led content strategy, ensuring high-impact engagement.
- Organized Mock Interview Event (Invente'23) – Designed an experience to prepare students for tech interviews.
